Dear all,

I have no doubt in my mind that if peace will ever dawn on earth it will be through the ancient India values of love all, serve all. Please watch the DVD on "Story of India" prepared by Michaelwood. And you may read chapter on "India is the gateway to world peace".

The western influence is harmful on the youth and people. America has a divorce rate of 55% and family values are bare minimum. The vulgarity of entertainment industry is having very bad influence on youth. They are lost. Education is not their priority. According to a magazine on front page (Time or Newsweek-I forgot which one is), sex addiction is epidemic in America. These are among the many other reasons for the America's decline. America needs a strong leader to reverse this harmful influence and world needs to take note of it.

This American capitalism is destroying not only America but the entire world. America has been exporting crony capitalism all over the world. The biggest gainer is China. China has been taking advantage of American foolish policy of free trade not fair trade. It has destroyed manufacturing base and has eliminated millions of jobs. We have now very low paying jobs like of Wal Mart-slave labor no benefits and humiliating wages.

On top of this now American people are broke, American government is broke. American people's buying power has been diminished considerably. Who made money? The corporations and their CEOs. 99% people lost or in trouble. 1 in 2 people are in poverty or low-income. Housing is collapsing. Student loans are \$1 trillion and cannot pay. Education is out of reach. 56 million have no health insurance. Life has become miserable in America and Europe.

40% American youth are considering to leave America to look for better opportunities abroad. Millions have already left. This is as per Barron's magazine article. What a change-from land of opportunity to land of despair.

Now all the Ponzy schemes created by America and Europe have been exhausted. Now banks after bank are in trouble. The sovereign debt of European countries is so high that they are ready to default. Now we are paying the price. We have near zero interest rate for fixed deposit. Why? So that banks can invest our money in the stock market and give CEOs millions in salaries and compensation. There is loot going on in America. Our Federal Reserve like Reserve Bank of India has printed almost \$29 trillion and to hide this only \$1.2 trillion is stated by the Federal Reserve. This according to prestigious Barron's magazine of Jan. 2, 2012. America is sinking in quick sand and still is full of lies. We have do-nothing Congress and practically government machinery is controlled by the wealthy, bankers and greedy corporations.

I pray that India does not fall into the trap of crony capitalism. I hope that the leaders of India learn a lesson and stop copying crony

capitalism of America and Europe.

I pray that America will come back to its real values. We need President like Abraham Lincoln to straiten out this mess. A decline of superpower and rise of arrogant China is a serious danger to world peace. We are facing many other challenges like terrorism but we are broke. Iraq, Egypt and other countries like Pakistan and Afghanistan are out of our control. We dole out in billions but we get no appreciation. Now we are broke. We are retreating in humiliating defeat.

Our foreign policy is a mess. We are in deep trouble.

Please forgive me for such a blunt expression of views but the situation is dire and made my heart to write from the heart. I hope that world leadrs wake up to the reality and do the right thing.

God bless America and people all over the world.

Respectfully,

Santosh C. Verma
